„Summer School on Environmental Biologically Effective UV Radiation“

- **Aim:** Interdisciplinary introduction of students to the broad field of environmental biologically effective UV radiation by: *lectures* as background and *active exercises and training*
- **Target-group:** students from all fields (medicine, .. biology, ..., meteorology, atm.physics)
- **Requirements:** should be able to express their interest
- **Participation:** as open as possible, restricted to European participants

„Summer School on Environmental Biologically Effective UV Radiation“

- **Topics:**
 - General UV,
 - Influence of met. Parameters (O₃, aerosol, clouds,..)
 - Measurements (spectral, broadband, dosimetry, quality,)
 - Modelling
 - Climatology
 - Photobiological effects and effectiveness
 - Standards
 - Results from COST726

MCM 8
